SMART SLIDER CCK INTEGRATION

The following images just focus on Cobalt CCK integration and won't show Smart Slider other features and themes. The Cobal CCK integration works with every Slider types, which shown on our demo site: http://demo.nextendweb.com/smartslider/

I have the following settings on my test site in Cobalt CCK:

Types - related fields

Blog

⇕ ✔	☐	Type	Status	Field Label
⋮	☐	⬚ html	✔	Post
⋮	☐	▨ image	✔	Product Image
⋮	☐	▣ video	✔	Video
⋮	☐	▦ gallery	✔	Gallery

Image

⇕ ✔	☐	Type	Status	Field Label
⋮	☐	▨ image	✔	Image
⋮	☐	⬚ text	✔	Caption

Sections - categories

My Blog

⇕	☐	Status	Title
⋮	☐	✔	Test1 (Alias: test1)
⋮	☐	✔	— Test 1-1 (Alias: test-1-1)
⋮	☐	✔	Test2 (Alias: test2)

My Images

⇕	☐	Status	Title
⋮	☐	✔	Category Images (Alias: category-images)
⋮	☐	✔	Other images (Alias: other-images)

Records

num		Status	Title		Type	Section	Category
1	☐	✔ ☆	🔒 Flexible CCK		Blog	My blog	Test1
			Hits 0 Comments 0 Votes 0 Bookmarked 0				
2	☐	✔ ☆	🔒 Notification System		Blog	My blog	Test1
			Hits 1 Comments 0 Votes 0 Bookmarked 0				
3	☐	✔ ☆	🔒 Multi-type		Blog	My blog	Test1
			Hits 1 Comments 0 Votes 0 Bookmarked 0				
4	☐	✔ ☆	🔒 Hydrangeas		Image	My Images	Category Images
			Hits 0 Comments 0 Votes 0 Bookmarked 0				
5	☐	✔ ☆	🔒 Jellyfish		Image	My Images	Other images
			Hits 0 Comments 0 Votes 0 Bookmarked 0				
6	☐	✔ ☆	🔒 Koala		Image	My Images	Category Images

Smart Slider - Generation features

I will show you 2 example slider, which generated from Cobalt CCK

Content Slider

SLIDE GENERATOR

Slide generator	Cobalt Cck
Select a type	Blog
Section filter	Disabled
Order by	Publish date
Order	Descending
Number of slides	3
Generates slides	ON

Cobal CCK content type. Required to select.

Section and category filter, not required

Disabled
- Disabled
- My blog
- -Test1
- --Test 1-1
- -Test2
- My Images
- -Category Images
- -Other images
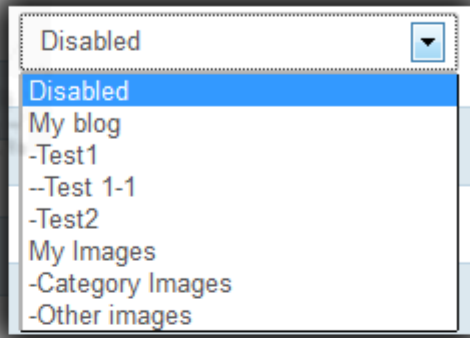

CONTENT POSITIONS

One Column

The generator will use the One Column content template

	product
	product
	image

|	
Heading target window	Self
Tag target window	Self
Read more target window	Self

DEFAULT ⊕

ADD POSITION ⊕   ADD CUSTOM CONTENT ⊕

Here the user can link the Cobal CCK field position from the select-ed Type to one specific position of the choosen Smart Slider content template

⊖ Title   Slide title

Title	Slide title
Record url	Heading
Post	Heading url
Product Image	Subheading
Video	First tag url
Gallery	First tag text
	Second tag url

Slide template positions

Fields from the type

After the Field to Template position I got this:

| One Column | ▾ |

Heading target window	Self ▾
Tag target window	Self ▾
Read more target window	Self ▾

DEFAULT ⊕

⊖	Title ▾	Slide title ▾	**Limit:**
⊖	Title ▾	Heading ▾	**Limit:**
⊖	Record url ▾	Heading url ▾	**Limit:**
⊖	Post ▾	First column content ▾	**Limit:**
⊖	Record url ▾	Read more url ▾	**Limit:**
⊖	Read More	Read more text ▾	

ADD POSITION ⊕   **ADD CUSTOM CONTENT** ⊕

And the result with Smart Slider

Slider

Image Slider from Cobal CCK

This picture contains Caption for the Smart Slider too. It works same as the Content template in the previous slider. Also in Captions, the "Latest Images" row is a custom static content for each slider.

The slider on the frontend:

Slider
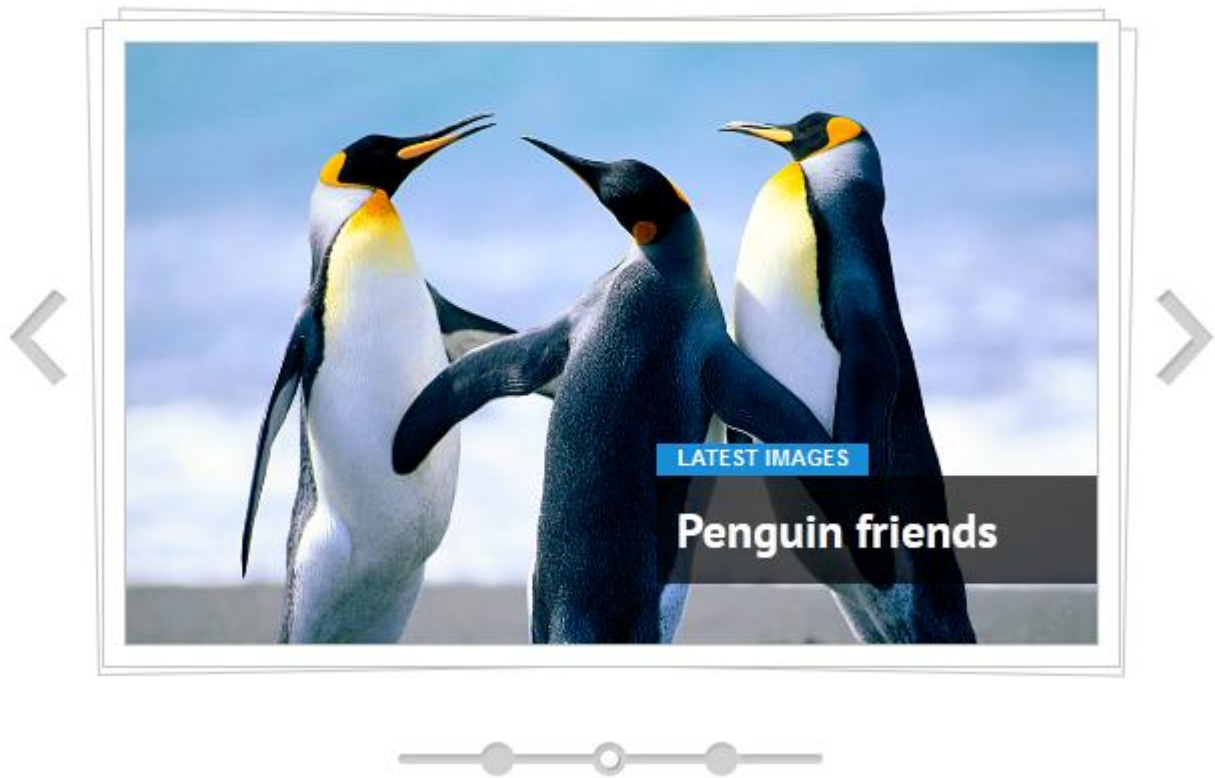

The integration were made on Joomla 3.0 and Cobalt 8, but also I checked and it worked me with Joomla 2.5 and Cobalt 7.
